An Independent Licensee of the Blue Cross and Blue Shield Association

7 GREAT REASONS TO CHOOSE CHP

1

Comprehensive Coverage: Your CHP plan provides complete medical care, including primary care and specialist services; inpatient and outpatient care; hospitalization; mental health and behavioral health services; maternity and newborn care; testing; and X-ray and lab services.

2

Preventive Care: Routine health screenings and tests, including the seasonal flu shot, are covered under your plan. Be sure to schedule your wellness exam with your primary care physician (PCP).

3

Prescription Drug Coverage and Home Delivery: Your CHP plan covers a wide range of medical prescriptions, including generics, name brand, and mail order options.

4

Capital Health Plan's Three Health Centers, located throughout our community, are exclusive to our members. They offer a broad range of services including access to CHP only physicians, evening and weekend urgent care services, labs, x-rays, digital mammography, colon screening, and wound care.

5

In addition, CHP offers an extensive network of primary and specialty care physicians located throughout our community. Our network also includes hospitals, outpatient centers, and other clinical care facilities.

6

Telehealth: You can receive care for nonemergency medical and behavioral health issues through network providers. For 24-hour access to a doctor for many common issues, like colds, flu, fever, rash, sinusitis, ear infection, and pinkeye, or when you're traveling, you can use our telehealth provider, Amwell.

7

24/7 Health Information Line: Talk to a nurse for answers about your health or medications, or whether you should go to the emergency room or see your regular doctor.

\$150 Wellness Program

As a Capital Health Plan member, you are eligible to be reimbursed for certain wellness expenses (gym and fitness center memberships, Weight Watchers, MyFitnessPal, etc.).
