

Clinical Practice Guideline: Management of Major Depression in Primary Care

Approved, CHP Quality Improvement Committee 3/27/01, 10/22/02, 10/28/03, 11/2/04, 11/1/05, 9/8/09, 5/10/11, 5/14/13, 5/12/15, 4/20/16, 5/9/17

Approved, Quality Improvement Management Team 10/25/07

Management of Depression in Primary Care

CHP Recommendation for Depression Screening

- CHP recommends that patients with chronic conditions and those age 65 and over be screened annually for depression.
- Those who screen positive for symptoms of moderate to severe depression should be referred for evaluation and treatment.

Annual Measurement for Effectiveness of Depression Guideline

- HEDIS[®] Antidepressant Medication Management, Commercial and Medicare populations:
 - Effective Acute Phase Treatment
 - Effective Continuation Phase Treatment
 - % Members with multiple chronic illnesses screened for depression, with symptoms of depression
 - % Members, as above, with symptoms of depression receiving treatment

Attachments:

- Yesavage Depression Scale
- Modified for Adolescents (PHQ-A)
- The Patient Health Questionnaire (PHQ-9)
- Interpretation of Total Score for PHQ-A and PHQ-9

Yesavage Depression Scale (Short Form)

The Yesavage Depression Scale was developed as a basic screening measure for depression in adults. If you score highly on this test, we strongly advise you to review the results with your doctor or other health care professional.

Choose the best answer for how you have felt over the past week:

1. Are you basically satisfied with your life?	YesN	No (No=1)
2. Have you dropped many of your activities & interests?	YesN	No (Yes=1)
3. Do you feel that your life is empty?	YesN	No (Yes=1)
4. Do you often get bored?	YesN	No (Yes=1)
5. Are you in good spirits most of the time?	YesN	No (No=1)
6. Are you afraid that something bad is going to happen to you?	YesN	No (Yes=1)
7. Do you feel happy most of the time?	YesN	No (No=1)
8. Do you often feel helpless?	YesN	No (Yes=1)
9. Do you prefer to stay at home, rather than going out & doing a few things?	YesN	No (Yes=1)
10. Do you feel you have more problems with memory than most?	YesN	Jo (Yes=1)
11. Do you think it is wonderful to be alive now?	YesN	No (No=1)
12. Do you feel pretty worthless the way you are now?	YesN	No (Yes=1)
13. Do you feel full of energy?	YesN	No (No=1)
14. Do you feel that your situation is hopeless?	YesN	No (Yes=1)
15. Do you think that most people are better off than you are?	YesN	No (Yes=1)
	Total:	

Scoring: 0-5 no problem; 6-10 mild depression; and 11-15 major depression.

PHQ-9 Modified for Adolescents (PHQ-A)

N	iame:Clinician:			Date:	
Instructions: How often have you been bothered by each of the following symptoms during the past <u>two</u> <u>weeks</u> ? For each symptom put an "X" in the box beneath the answer that best describes how you have been feeling.					
		(0) Not at all	(1) Several days	(2) More than half the days	(3) Nearly every day
1.	Feeling down, depressed, irritable, or hopeless?				
2.	Little interest or pleasure in doing things?				
3.	Trouble falling asleep, staying asleep, or sleeping too much?				
4.	Poor appetite, weight loss, or overeating?				
5.	Feeling tired, or having little energy?				
	Feeling bad about yourself – or feeling that you are a failure, or that you have let yourself or your family down?				
7.	reading, or watching TV?				
8.	Moving or speaking so slowly that other people could have noticed? Or the opposite – being so fidgety or restless that you were moving around a lot more than usual?				
9.	Thoughts that you would be better off dead, or of hurting yourself in some way?				
In the past year have you felt depressed or sad most days, even if you felt okay sometimes?					
If you are experiencing any of the problems on this form, how difficult have these problems made it for you to do your work, take care of things at home or get along with other people?					
Has there been a time in the past month when you have had serious thoughts about ending your life?					
На	ve you EVER , in your WHOLE LIFE, tried to kill yourself or	made a suic	ide attempt	?	
**]	f you have had thoughts that you would be better off dead	or of hurting	yourself in	some way,	

Severity Score

please discuss this with your Health Care Clinician, go to a hospital emergency room or call 911.

Interpretation of Total Score for PHQ-9 and PHQ-9A

Severity Assessment:

For adults and adolescents, depression severity is correlated with PHQ-9 and PHQ-9A scores as follows:

Total Score	Depression Severity
20 - 27	Severe major depression
15 - 19	Moderately severe major depression
10 - 14	Moderate major depression
5 - 9	Indeterminate or mild depression (people with this score could have had major depression that is now improved, chronic mild depression (dysthymia), or transient mild depression. The PHQ-9 and PHQ-9A cannot distinguish among these. Use clinical judgment to determine the appropriate next steps.
1 - 4	Minimal Depression
