| Important Questions | Answers | Why This Matters: |
|---|---|---|
| **What is the overall deductible?** | Combined Medical and Pharmacy: $750 individual / $1,500 family. | Generally, you must pay all of the costs from providers up to the deductible amount before this plan begins to pay. If you have other family members on the plan, each family member must meet their own individual deductible until the total amount of deductible expenses paid by all family members meets the overall family deductible. |
| **Are there services covered before you meet your deductible?** | Yes. Preventive Care and certain services such as Primary Care, Specialist, and Telehealth are covered before you meet your deductible. Please refer to the services below for details. | This plan covers some items and services even if you haven't yet met the deductible amount. But a copayment or coinsurance may apply. For example, this plan covers certain preventive services without cost sharing and before you meet your deductible. See a list of covered preventive services at https://www.healthcare.gov/coverage/preventive-care-benefits/. |
| **Are there other deductibles for specific services?** | No. | You don't have to meet deductibles for specific services. |
| **What is the out-of-pocket limit for this plan?** | Combined Medical and Pharmacy: $2,800 single coverage / $5,600 family coverage. | The out-of-pocket limit is the most you could pay in a year for covered services. If you have other family members in this plan, they have to meet their own out-of-pocket limits until the overall family out-of-pocket limit has been met. |
| **What is not included in the out-of-pocket limit?** | Premiums and health care this plan doesn't cover. | Even though you pay these expenses, they don't count toward the out-of-pocket limit. |
| **Will you pay less if you use a network provider?** | Yes. See www.capitalhealth.com or call 850-383-3311 for a list of network providers. | Be aware, your network provider might use an out-of-network provider for some services (such as lab work). Check with your provider before you get services. |
| **Do you need a referral to see a specialist?** | No. | You can see the specialist you choose without a referral. Prior authorization required for certain services performed in a specialist office. |

All **copayment** and **coinsurance** costs shown in this chart are after your **deductible** has been met, if a **deductible** applies.
